In his own post-combat search for meaning, Cameron, the project's co-founder, discovered that paper making could be a transformative process that broadens "the traditional narrative surrounding the military experience and warfare." <http://www.herron.iupui.edu/blog/22102014/popular-workshops-return-herron>
- **Helen Sanematsu**, Associate Professor of Visual Communication Design, brought real-world studies in the health sciences into her teaching in Spring. Principal Investigators from the IU School of Nursing, the IU School of Medicine, and the Indiana Institute for Personalized Medicine worked with five senior students on capstone projects on Disruptive Behavior Disorder in adolescents, MRSA (an antibiotic-resistant strain of bacterial staph infections), and pharmacogenetics. Students designed printed materials that researchers actually used in their interactions with patients and reports of their findings and outcomes.
- **Helen Sanematsu**, Associate Professor of Visual Communication Design, was designated Associate Director for Communications at the Community Health Engagement Program of the Indiana CTSI. Her role is to improve the "fit" between health research and the public at large through the application of service design and communication design, with the ultimate goal of improving the health culture of Indiana.
- The Patient Engagement Core (**Dustin Lynch** and **Courtney Moore**, both BFA in Visual Communication Design, '10. Founded by Helen Sanematsu, Assoc. Prof VCD), a joint project of the Indiana CTSI and the IU School of Medicine, has created design methods and artifacts with more than 15 investigators since October, 2014. The PEC applied design methods learned at Herron to studies in type one diabetes, pharmacogenetics, visualization of patient symptom scores, and attention deficit hyperactivity disorder (ADHD). **Danyell Hudson** (VCD '15) joined the team as an intern in Spring 2015. The PEC is rapidly expanding and plans to be looking for design interns and fellows in 2015-16.
- The Indiana University School of Nursing, Informatics & Computing, Kelly School of Business, Herron School of Art and Design Purdue School of Engineering and Technology, Fairbanks School of Public Health, and the Department of Communication

Studies have developed an inter professional leaning laboratory rooted in real -life innovation , discovery and collaboration. Graduate students in collaborating schools have the option to enroll in a series of three courses that will allow them to join a team of colleagues in a stable cohort over 1.5 year to solve a series of challenges related to the delivery of healthcare where people, live, work and play. Associate Professor **Youngbok Hong** as one of the faculty coaches has developed the course activities and led the two student teams. Her student team including **Adrienne Brown**, Herron Graduate student, won the first case study competition. <https://vimeo.com/122059409>

- Your life and Your Story: Latino Youth Summit (LYYS) is an evidence-based, interdisciplinary, community-based yearlong program, which consisted of a one-week summer camp where Latino youth went through a resilience-building curriculum, followed by a selection of art and movement based activities to develop goals for the future and identify barriers and opportunities. In collaboration with Latino Health Organization, the research team consists of faculty members from IU Richard M. Fairbanks School of Public Health, School of Education, School of Informatics, and Herron School of Art and Design. Associate Professor **Youngbok Hong** developed the framework of the summer camp and designed the course activities in art and design section. <http://pbhealth.iupui.edu/index.php/cheer-community-health-engagement-and-equity-research/projects/>

Contributions to the Well-being of the Citizens of Indianapolis, Indiana, and beyond

- Associate Professor **Danielle Riede** created “Sustainable Growths” – cleaning up a blighted home & made 361 sf installation on the rooftop; held multiple free art workshops for kids at the installation site.
